

PSAT and SAT Assessments

The College Board has launched its new online reporting portal. Students who take PSAT and SAT assessments are able to access online score reports via this portal. The portal is new, and many individuals are trying to access it, so College Board has asked that people be patient. If you find that you attempt to login but cannot access the site, please try again at an off-hour when traffic is less busy.

Paper score reports will be delivered to schools in February, but the same report can be accessed through the online portal.
