Guidance Activities

- School counselors will meet with area 8th grade students at Wilbur Wright Middle School to present an overview of high school life, including curriculum and graduation requirements. Counselors will conduct an evening informational session for parents of incoming freshmen.

- Middle and high school counselors will help incoming freshmen make appropriate course selections for 2019-2020.

- Counselors will meet with freshmen in small groups in September to acclimate them to the Guidance office and policies.

- Counselors will meet individually with 9th & 10th graders to determine class selections and to review courses of study. Sophomores will engage in career interest inventories and career exploration.

- Counselors will meet individually with students in 11th grade to review graduation requirements, post-secondary plans, college entrance requirements, and senior courses. Juniors will review the college application process and examine tools that help them search for appropriate schools.

- Counselors will meet individually with students in 12th grade to review graduation requirements and post-secondary plans.

Schedule Changes

- Classes may be changed during the first 4 days of each semester for the following reasons: unscheduled class period, class needed to complete graduation requirements, or failure of a prerequisite.

- A “Schedule Change Request Form,” with a parent signature of approval, must be submitted to the Guidance Office by the end of the fourth day of each semester. Submitting a request does not guarantee a schedule change.

- Schedule change requests are handled on an individual basis. A course may be added only if the change does not cause classroom overcrowding. Students who withdraw from a class, with parent approval, after the seventh week of the semester will receive a grade of “WF” (Withdraw Failure). The “WF” is recorded as the semester grade and is computed in the student’s grade point average.

- Please understand that schedules can change at the semester to accommodate the scheduling requests of all students. There is no guarantee that students will keep the same teacher or course order from semester to semester.

- Students and families cannot request specific teachers, lunch hours, or class periods.

Grades and Athletic Eligibility

- To participate in athletics, a student must have passed 5 classes the previous grading period or semester. The student must also be passing at least 5 subjects in the current grading period. All freshmen are eligible to participate during the first 9-week grading period if they are currently enrolled in and passing 5 courses.

AP/ Honors/ Advanced Courses

- Students may only take 6 AP/Honors/ Advanced classes per semester. This is the equivalent of 18 college hours. Students wishing to attempt 7 AP/Honors/ Advanced classes may submit a written request to their counselors. This will be approved or denied by the building principal.
DIPLOMA CREDIT REQUIREMENTS

The Indiana Core 40 curriculum provides the academic foundation necessary to succeed in college and the work force. Therefore, the Core 40 Diploma is the minimum requirement for admission to Indiana’s four-year public universities. To graduate with less than a Core 40 Diploma, it must be determined that earning a MHS General Diploma is in the student’s best interest. A formal opt-out process must then occur, involving parents, counselors and administrators.

### Additional Information on Graduation Requirements

#### FOR A TECHNICAL HONORS DIPLOMA, A STUDENT MUST ALSO:

* Earn a grade “C-” or better in required courses.
* Have an overall GPA of 3.0 or better.
* Earn 6 credits in the college and career preparation courses in a state-approved College & Career Pathway and one of the following:
  1. Pathway designated industry-based certification or credential OR
  2. Pathway dual credits from the lists of priority courses resulting in 6 transcripted college credits.
* Complete one of the following:
  A. Any one of the options for the AHD.
  B. Score at or above the following levels on WorkKeys:
     - Reading for Info- Level 6, Applied Math- Level 6, Locating Info- Level 5.
  C. Earn the following minimum score(s) on Accuplacer Placement: Writing 80, Reading 90, Math 75.
  D. Earn the following minimum score(s) on Compass: Algebra 66, Writing 70, Reading 80.

#### FOR AN ACADEMIC HONORS DIPLOMA, A STUDENT MUST ALSO:

* Earn a grade of “C-” or better in required courses, each semester.
* Have an overall GPA of 3.0 or better.
* Complete one of the AHD requirements listed below:
  A. Complete AP courses (4 credits) & corresponding AP exams.
  B. Complete dual credit courses resulting in 6 transferable credits.
  C. Complete a combination of AP course(s) (2 credits) AND corresponding AP exams AND dual credit course(s) resulting in 3 transferable college credits.
  D. Earn a combined score of 1250 or higher on the SAT and a minimum of 560 on math and 590 on ERW.
  E. Score a 26 or higher composite on the ACT with written section.
GRADUATION PATHWAYS -- CLASS OF 2023 & Beyond
(This section of the course guide is subject to revision as more information becomes available.)

INDIANA STATE BOARD OF EDUCATION

GRADUATION PATHWAYS PANEL
(Updated 11/16/2018)

The purpose for this Panel is to establish graduation pathway recommendations for the State Board of Education that create an educated and talented workforce able not just to meet the needs of business and higher education, but able to succeed in all postsecondary endeavors. To account for the rapidly changing global economy, every K-12 student needs to be given the tools to succeed in some form of quality postsecondary education and training, including an industry-recognized certificate program, an associate’s degree program, or a bachelor’s degree program.

These recommendations seek to ensure that every Hoosier student graduates from high school with 1) a broad awareness of and engagement with individual career interests and associated career options, 2) a strong foundation of academic and technical skills, and 3) demonstrable employability skills that lead directly to meaningful opportunities for postsecondary education, training, and gainful employment.

Students in the graduating class of 2023 must satisfy all three of the following Graduation Pathway Requirements by completing one of the associated Pathway Options:

<table>
<thead>
<tr>
<th>Graduation Requirements</th>
<th>Graduation Pathway Options</th>
</tr>
</thead>
<tbody>
<tr>
<td>1) High School Diploma</td>
<td>Meet the statutorily defined diploma credit and curricular requirements.</td>
</tr>
</tbody>
</table>
| 2) Learn and Demonstrate Employability Skills<sup>1</sup>  
(Students must complete at least one of the following.) | Learn employability skills standards through locally developed programs. Employability skills are demonstrated by one of the following:  
- Project-Based Learning Experience; OR  
- Service-Based Learning Experience; OR  
- Work-Based Learning Experience.<sup>2</sup> |
| 3) Postsecondary-Ready Competencies<sup>3</sup>  
(Students must complete at least one of the following.) |  
- Honors Diploma: Fulfill all requirements of either the Academic or Technical Honors diploma; OR  
- ACT: College-ready benchmarks; OR  
- SAT: College-ready benchmarks; OR  
- ASVAB: Earn at least a minimum AFQT score to qualify for placement into one of the branches of the US military; OR  
- State- and Industry-recognized Credential or Certification; OR  
- Federally-recognized Apprenticeship; OR  
- Career-Technical Education Concentrator<sup>4</sup>: Must earn a C average in at least two non-duplicative advanced courses (courses beyond an introductory course) within a particular program or program of study; OR  
- AP/IB/Dual Credit/Cambridge International courses<sup>5</sup> or CLEP Exams: Must earn a C average or higher in at least three courses; OR  
- Locally created pathway that meets the framework from and earns the approval of the State Board of Education. |
Box 2: Employability Skills
Students must complete one of the three options listed below (Project-Based, Service-Based, or Work-Based Learning). There is no waiver option for BOX 2. All students must complete 1 of 3 options.

1. Project-Based Learning:
   a. This is not the simple completion of a class project.
   b. Established within certain capstone classes
   c. Completion of a student work product
   d. Validated by the high school

2. Service-Based Learning:
   a. Engagement in a school-based activity that is co-curricular or extra-curricular for at least one academic year. Athletics/sports can count.
   b. Not the simple completion of community service hours
   c. Completion of an Eagle Scout Award (BSA) OR Gold Award (GSA)
   d. DOC 200 Award
   e. Students can submit other meaningful service activities for review
   f. Completion of a student work product
   g. Validated by the high school

3. Work-Based Learning:
   a. Completion of the Governor’s Work Ethic Certificate
   b. Employment outside of school (summer, after-school, weekend) totaling 75 hours
   c. Completion of a student work product
   d. Validated by the high school

Box 3: Postsecondary-Ready Competencies
Students have various ways to meet BOX 3 Competencies. Students must complete 1 of these options or meaningfully attempt 3 of them to qualify for a waiver.

1. Complete an Academic Honors OR Technical Honors Diploma

2. Achieve ACT benchmark scores of the following (super-scoring allowed) (English or Reading & Math or Science):
   a. English 18
   b. Reading 22
   c. Math 22
   d. Science 23
3. Achieve SAT Benchmark scores of the following (super-scoring allowed):
   a. English (ERW) 480 (53rd%)  
   b. Math 530 (69th%)

   *ACT and SAT benchmark scores are based on national data. A student with these scores demonstrates a 75% likelihood of achieving a C or higher in core freshmen classes.*

4. Achieve ASVAB scores of the following:
   a. Army 31
   b. Marines 31
   c. Navy 35
   d. Air Force 36
   e. Coast Guard 45

5. Complete a State and Industry-recognized Credential or Certification (Frequently earned through the Area Career Center of Hammond)

6. Become a Career-Technical Education Concentrator
   a. PLTW Biomedical Sciences (PBS, HBS, MI)
   b. PLTW Engineering (IED, DE OR CEA, POE)
   c. AP Computer Science Principles & AP Computer Science A & AP Exams
   d. Entrepreneurship Pathway
      i. Principles of Marketing
      ii. Principles of Business Management
      iii. Entrepreneurship
   e. Various programs at the Area Career Center of Hammond

7. Advanced Placement
   a. Must earn a C average or higher in at least three courses
   b. One course must be in English, Math, Science, or Social Studies
   c. Must take the AP exam regardless of score
   d. Grades of D or F in an AP course can be replaced with a score of 3 or higher on the exam
   e. Can mix AP and Dual Credit classes to complete this requirement

8. Dual Credit
   a. Must earn a C average or higher in at least three courses
   b. Meet the dual credit partner entrance requirements
   c. One course must be in a core content area OR three must be part of a CTE sequence.
   d. *Note: Due to increased certification standards, dual credit offerings will diminish in 2022.*

9. Waiver
   a. No waiver for Box 2. Waiver only available for Box 3.
   b. For students who did not achieve three different Box 3 options.
   c. Senior year transfer from out of state AND did not achieve a Box 3 option.

COURSE DESCRIPTIONS

BUSINESS TECHNOLOGY EDUCATION

AP COMPUTER SCIENCE PRINCIPLES (IDOE#: 4801) Y 9, 10, 11, 12
Recommended Prerequisite: Successful completion of Algebra I
The AP Computer Science Principles course is designed to introduce students to the central ideas of computing and computer science, to instill ideas and practices of computational thinking, and to have students engage in activities that show how computing and computer science can change the world. Students will creatively address real-world issues and concerns while using the same processes and tools as artists, writers, computer scientists, and engineers to bring ideas to life. The course is rigorous and rich in computational content and engages students in the creative aspects of the computer science field. This course is designed for college-bound students looking to gain in depth computer knowledge to be used in any field of study. This course is taken prior to AP Computer Science A. Successful completion of this course will prepare students for the AP Computer Science Principles exam in May.

AP COMPUTER SCIENCE A (IDOE#: 5236) Y 11, 12
Recommended Prerequisite: Successful completion of Algebra II
If you are interested in computer programming—one of the fastest growing careers today—this is the class for you. This course uses Java, the most world-wide language, to teach object-oriented programming with a concentration on problem solving and algorithm development. Students solve programming problems by planning, entering, and debugging solutions using the Java language. Some of the topics covered will include variables, classes, objects, algorithms, decision statements, loops, strings, arrays, array Lists, methods, inheritance, interfaces, and recursion. Programming skills and conceptual understanding are developed through a problem-solving, hands-on approach. Successful completion of this course will prepare students for the AP Computer Science A exam in May. (Q. R Course)

PLTW CYBERSECURITY (IDOE#: 5253) Y 10, 11, 12
New Course for 2020-2021
Prerequisite: AP Computer Science Principles
*Federal funding requires the disclosure of student social security number to enroll in this class.
PLTW Cybersecurity is a full-year course. The design of the course exposes high school students to the ever-growing and far-reaching field of cybersecurity. Students accomplish this through problem-based learning, where students role-play as cybersecurity experts and train as cybersecurity experts do. PLTW Cybersecurity gives students a broad exposure to the many aspects of digital and information security, while encouraging socially-responsible choices and ethical behavior. It inspires algorithmic thinking, computational thinking, and especially “outside-the-box” thinking. Students explore the many educational and career paths available to cybersecurity experts, as well as other careers that comprise the field of information security. The course contains the following units of study: Personal Security, System Security, Network Security, and Applied Cybersecurity.

INFORMATION TECHNOLOGY INTERNSHIP (IDOE#: 5974) S 12
New Course for 2020-2021
Prerequisite: Completion of 4 credits of Introductory or Advanced classes in an Information Technology Career Pathway with a “C” or better.
These courses include AP Computer Science Principles, AP Computer Science A, PLTW Cybersecurity. Please see brochure.
*Federal funding requires the disclosure of student social security number to enroll in this class.
This course offers Munster students a unique opportunity to intern with local businesses or organizations in a technology field related to their interest. Students need to provide their own transportation. Students should declare their interest early in their high school careers so counselors can ensure that the proper coursework has been completed. This multi-period class schedules in a block either at the beginning or end of the school day. Students violating school rules or expectations will be removed from internships. Intern applicants will be reviewed for grades, course work, attendance and discipline records. If interest exceeds availability, the most qualified students will be selected.

PRINCIPLES OF BUSINESS MANAGEMENT (IDOE#: 4562) Y 10, 11, 12
*Federal funding requires the disclosure of student social security number to enroll in this class.
This course is designed for students enrolled in a college prep curriculum and interested in pursuing a career in business. Instruction includes business organization, entrepreneurship, management, labor, marketing, and finance. Coursework requires supplemental materials, outside readings, group discussions, simulations, and written analyses. Students must take this course or Principles of Marketing to complete the Business Pathway for Entrepreneurship.
Concurrent Enrollment- Ivy Tech (BUSN 101) (3 credits)

PRINCIPLES OF MARKETING (IDOE#: 5914) Y 9, 10, 11, 12
*Federal funding requires the disclosure of student social security number to enroll in this class.
This course provides a basic introduction to the scope and importance of marketing in the global economy. Emphasis is placed on oral and written communications, mathematical applications, problem solving, and critical thinking skills as they relate to advertising, promotion, selling, distribution, financing, marketing information management, pricing, and product/service management. Students will learn how to work in groups to create a marketing plan.
Business Pathway for Entrepreneurship.
**FAMILY AND CONSUMER SCIENCE**

**PREPARATION FOR COLLEGE AND CAREERS** *(Required)*  
(IDOE#: 5394)  
S  
10  
*Federal funding requires the disclosure of student social security number to enroll in this class.*

This class addresses the knowledge, skills, and behaviors students need to live successfully. Topics include: higher-order thinking skills, communication, leadership, and management processes; exploration of personal aptitudes, interests, values, and goals; career exploration and planning; roles and responsibilities as an individual and as family members; building employment skills and transferring academic skills to one’s life work.

**INTERPERSONAL RELATIONSHIPS**  
(IDOE#: 5364)  
S  
9, 10, 11, 12  
*Federal funding requires the disclosure of student social security number to enroll in this class.*

This class focuses on individuals and families to help students understand themselves. The course explores relationships with friends and family, dating and engagement, marriage, and ways to strengthen relationships. Throughout the semester, students work on planning all aspects of their own wedding and create a wedding album as a required project.

**ADULT ROLES AND RESPONSIBILITIES**  
(IDOE#: 5330)  
S  
9, 10, 11, 12  
*Federal funding requires the disclosure of student social security number to enroll in this class.*

This class focuses on preparing students for life outside of high school by teaching the importance of values, goals, decision-making, and management. Class will also include a six-week financial unit that introduces topics like financial planning, budgeting, investing, credit, banking, and financial pitfalls. Students will finish out the semester by receiving an income and family situation in which they will then buy a house, cars, food, and vacations for that “family” in order to incorporate real life applications to the class.

**EDUCATION PROFESSIONS I**  
(IDOE#: 5408)  
Y  
11, 12  
*Federal funding requires the disclosure of student social security number to enroll in this class.*

Education Professions I provides the foundation for employment in education and related careers and prepares students for study in higher education. An active learning approach that utilizes higher order thinking, communication, leadership, and management processes is recommended in order to integrate suggested topics into the study of education and related careers. The course of study includes, but is not limited to: the teaching profession,
the learner and the learning process, planning instruction, learning environment, and instructional and assessment strategies. **Exploratory field experiences in the classroom setting, and career portfolios are required components.** A standards-based plan guides the field experience. Students are monitored in their field experiences by the Education Professionals I teacher.

**Concurrent Enrollment- Ivy Tech* (EDUC 101) (3 credits)**

**INTRODUCTION TO CULINARY ARTS AND HOSPITALITY 1** (IDOE#: 5438)  
*Federal funding requires the disclosure of student social security number to enroll in this class.

The course focuses on nutrition and food preparation. Topics covered in the first grading period include the food & kitchen safety, foodservice equipment, tools, understanding recipes and nutrition. During the remainder of the semester, students will cook over 25 times. Cooking labs include a variety of recipes from all the food groups. These may vary on season and product availability.

**INTRODUCTION TO CULINARY ARTS AND HOSPITALITY 2** (IDOE#: 5438)  
*Federal funding requires the disclosure of student social security number to enroll in this class.

Prerequisite: “C-” in Introduction to Culinary Arts and Hospitality 1

The course focuses on advanced cooking techniques and preparations. Topics covered during the first grading period include review of prerequisite course, fish, shellfish, meat and poultry. The remainder of the semester, students will work in the kitchen to hone their skills and create dishes from around the world. The course ends with a cooking competition.

**FINE ARTS: MUSIC, THEATRE, VISUAL ARTS**

**MARCHING BAND/CONCERT BAND** (IDOE#: 4170)  
During the first semester, all students will be involved in this co-curricular ensemble. The marching band performs at community events such as ISMAA sanctioned events, parades, pep rallies, football games. District, Regional, Semi-State and State. Attendance at scheduled rehearsals and performances is required and is considered part of the student’s grade.

The two concert bands at MHS are the Wind Ensemble and the Symphonic Band. Placement in these two bands will be by audition at the conclusion of the marching band season. These bands are designed to help prepare students with skills necessary to participate in a professional performance ensemble. Literature is geared to the members’ abilities with emphasis being placed on improvement of tone quality, reading skills and technical proficiency. These bands perform for school and community events throughout the year, and will participate in the ISSMA Concert and Sight Reading Contest. Attendance at scheduled rehearsals and performances is required and is considered part of student grades.

**BEGINNING CHORUS** (IDOE#: 4182)  
*Note: The course will be broken into classes by gender if the numbers are sufficient.

This ensemble is a beginning-level choral group intended for students who have not sung in a choir in high school. This course will teach the basics of music theory, sight-singing, rehearsal procedure, pitch, and tone production. Choral literature that is at a Group I, II, or III state level will be sung. Students taking this course are required to perform at four evening concerts, as well as ISSMA Large Group Contest in April.

**INTERMEDIATE CHORUS** (IDOE#: 4186)

Prerequisite: 2 Semesters of High School Choir or Director Recommendation.

This intermediate-level, mixed (SATB) choir continues to refine tone production and pitch, learn mid-level music theory and sight singing, and sing music of the Group I, II or III state level. Students taking this course are required to perform at four evening concerts as well as ISSMA Large Group or State Qualification Contest in April.

**CHORUS (CONCERT CHOIR)** (IDOE#: 4188)

Prerequisite: Audition and Director Recommendation; previous experience in high school choir.

Chorale is the top choral ensemble at Munster High School. This advanced-level, mixed (SATB) choir focuses on challenging choral literature, high-level music theory and sight-singing, and high-caliber performances. Singers should have control and mastery over pitch, tone production, and other vocal techniques. Students are required to perform at five evening concerts, ISSMA State Qualification in April, ISSMA State Finals in May (if a spot is earned), and Commencement in June. In addition, Chorale sings for several community and sporting events throughout the year.

**INTERMEDIATE ORCHESTRA (PHILHARMONIC)** (IDOE#: 4174)  
Philharmonic Orchestra is open to students who play a string instruments. The class meets daily for instruction in performance techniques, music theory, study, and exposure to orchestral repertoire. Solo and chamber work is permitted in addition to meeting with the full ensemble. The MHS Philharmonic Orchestra competes in the ISSMA Circuit playing Group 2 music.

**ORCHESTRA (SYMPHONY)** (IDOE#: 4174)  
Symphony Orchestra is open to students based on auditions. The class meets daily for instruction in performance techniques, music theory, study, and exposure to orchestral repertoire. Solo and chamber work is permitted in addition to meeting with the full ensemble. Additional rehearsals can be scheduled outside of the school day. The MHS Symphony Orchestra competes in the ISSMA Circuit playing Group I music.
PIANO AND ELECTRONIC KEYBOARD  (IDOE#: 4204)  5  9, 10, 11, 12
This course is a semester-long study of piano and keyboard performance. Students will learn all major scales, minor scales, chords and inversions, three or four piano solos, a piano solo that will be transcribed (written down by listening). In addition, students will learn basic music notation and terminology. No music experience is necessary, but students who have had piano will be placed (solo-wise) at their level of experience.  *Counts as a Fine Arts Credit

THEATER ARTS  (IDOE#: 4242)  5  9, 10, 11, 12
This class introduces the student to theater as a performance art. Instruction begins with a general overview of the total theater, including historical background, the physical stage, styles of presentation, and the many components of a typical production. Students are encouraged to pursue creativity and control in a wide variety of acting experiences including theater games, improvisation, mime, movement, voice, and both solo and group performances. Cooperative projects and constructive criticism, both oral and written, are key elements in building the student’s craft. Students will also evaluate presentations and, whenever possible, see and evaluate professional performances. A final exam project will be presented before an audience. The primary goals of this course are to develop each student’s individual skills and talents and broaden their knowledge of theatrical performance.  *Counts as a Fine Arts Credit

TECHNICAL THEATER  (IDOE#: 4244)  5  9, 10, 11, 12
This class introduces the technical aspects of theater arts. Included are demonstrations, class work, and student projects. By combining research of techniques with hands-on experience, course content focuses on the specific arts and crafts of scenery, props, lighting, sound, costuming, and makeup. Student aptitudes and abilities are discovered and developed through cooperative activities and individual projects. As much as possible, practical experience on MHS productions will be included. This is a class for students who are able to work independently. Students should be aware that learning to work with power tools, texture with latex-based paints, and apply stage make-up are required components of the class. Critiques on technical areas of actual productions are also expected. Whenever feasible, a professional performance is seen and evaluated.  *Counts as a Fine Arts Credit

INTRODUCTION TO 2D ART  (IDOE#: 4000)  5  9, 10, 11, 12
This studio art class is a foundations course dealing with the elements and principles of design, the historical and cultural influences of art, as well as production. Studio experiences may include work in pencils, markers, pens, acrylic, watercolor, printmaking, design, and collage. Students are introduced to a variety of techniques while stressing original composition. Some group work is incorporated in addition to independent work. Students also learn to critique and discuss art using art terminology to describe, analyze, and interpret works. This course is a prerequisite for 2D Art 2, Digital Design I & II, Drawing, Painting I, Painting II, Painting III, Sculpture I & II, and AP Studio Art classes.

DRAWING  (IDOE#: 4060)  5  9, 10, 11, 12
Prerequisite: Intro to 2D
Drawing is a level 2, semester-long course, designed for the student with the Intro prerequisite and a love of drawing! Students explore a variety of media while attending to quality, technique, and expression. The majority of the works are in “dry media,” however, inks, oil pastels, acrylic, and watercolor may also be explored. Discovery of the traditional, more formal realistic (representational), abstract, non-objective, expressionistic and stylized formats will be examined. Students begin to experience the various Philosophies of Art by becoming a Designer, an Expressionist, a Formalist, and an Instrumentalist. Projects may include a Lyrical Interpretation (The Song Project), pieces on social awareness (The Cause Project), Logo Design, and tonal drawings in charcoal. Assignments range from warm-up exercises to slower paced, longer-range drawings and mixed media works. This course is a prerequisite for 2D Art 2, Digital Design I & II, Drawing, Painting I, Painting II, Painting III, Sculpture I & II, and AP Studio Art classes.

PAINTING I  (IDOE#: 4064)  5  10, 11, 12
Prerequisite: Intro to 2D and Drawing
Students explore a variety of “wet media” while attending to technique, quality, and expression. Students will investigate art’s role in society by creating illusions in acrylic, by interpreting and translating technology into traditional media in Watercolor, and by creating a self-portrait in oil. Three written critiques are required per quarter. Sketchbook assignments continue. After this course, students are advised to take Painting II, 2D Art 2, and one additional art class to enter AP Studio Art.

PAINTING II  (IDOE#: 4064)  5  10, 11, 12
Prerequisite: “C‐” in Painting I
Student begin by researching three artists from three distinct periods of art history and then create original works influenced by those artists. Student works must reflect the historical, political, or social context of the originals and be presented, along with a 4th independent piece using mixed-media, as a comprehensive final exam. There needs to be a solid link or logical progression to the works. Research will be conducted on each artist. The final exam presentation will include these works and supporting research and evidence within a digital format. One piece each will be done in watercolor, acrylic and oil. Students will also learn how to stretch and prepare a canvas. Discussion, theories, project and portfolio development and competitions are stressed in this class. Critiques continue in written form at this point, and weekly sketchbook assignments increase under self-directed themes. Time management is critical, and an exhibition component is required.  This class is strongly encouraged for students who wish to pursue the AP Studio class.
2D ART 2  
(IDOE#: 4004)  
S  
10, 11, 12

**Prerequisites: Intro to 2D, Drawing, and Painting**

This semester course is an in-depth investigation of two-dimensional art forms, including calligraphy, drawing, painting, and printmaking. Works emphasize personal expression, mastery of techniques and understanding of the appropriate use of two dimensional design concepts, as well as continued use of an art vocabulary and critiquing skills. Presentations of historical art references and current work in exhibition provide information and inspiration. An hour of outside sketchbook work plus three written critiques per quarter are required. Time management and exhibition/competition involvement are critical. *This is strongly encouraged for students who wish to pursue the AP class.*

CERAMICS I  
(IDOE#: 4040)  
S  
9, 10, 11, 12

Ceramics I provides an introduction to the vocabulary, general knowledge, and basic skills of clay construction and glazing techniques. Students learn the fundamentals of pinch, coil, and slab hand-building techniques by working with pottery.

CERAMICS II  
(IDOE#: 4040)  
S  
9, 10, 11, 12

**Prerequisite: “C-” in Ceramics I.**

This course introduces students to the potter’s wheel as they continue to perfect their hand-building techniques. Emphasis is placed on form, design, and craftsmanship which require advanced technical skills.

SCULPTURE I  
(IDOE#: 4044)  
S  
10, 11, 12

**Prerequisite: Intro to 2D and Drawing**

Sculpture 1 is an upper level studio art course for students who have successfully met the requirements of Intro to 2-D Art and Drawing and wish to further their experiences in an art studio by exploring an assortment of 3-D art medium including clay, wood, stone, wire, and more. The course will build on students’ basic art knowledge established in Intro, specifically the elements of art and principles of design, and introduce students to sculpture concepts. A high level of student self-motivation/direction is expected as in any upper level studio course.

SCULPTURE II  
(IDOE#: 4044)  
S  
10, 11, 12

**Prerequisite: “C-” in Sculpture I**

Sculpture 2 is an upper level studio art course for students who have successfully met the requirements of Intro to 2-D Art, Drawing, and Sculpture 1 and who wish to advance their experiences in an art studio by further exploration of the three-dimensional art world. Sculpture 2 will continue where Sculpture 1 left off in exploring an assortment of 3-D art medium including clay, wood, stone, wire, and more. The course will build on students’ basic 3-D art knowledge and sculpture concepts established in sculpture 1. A high level of student self-motivation/direction is expected as in any upper level studio course.

AP ART HISTORY  
(IDOE#: 4025)  
Y  
10, 11, 12

**Recommended Prerequisite for Grade 10: An “A-” in both semesters in English 9 or “B-” or higher in Honors English 9. Grades 11 and 12: “B-” in English 10 or English 11.**

AP Art History is a survey of the history of art from Paleolithic times to the present. The course employs slides, text, and lecture-based learning to help students analyze and appreciate how art affects history and history affects art. Students may elect to take the AP exam to earn college credit. Prospective students should have strong verbal/writing skills and a thorough background in history. *(Course offered based on requests.)*

AP STUDIO ART  
(IDOE#: 4050)  
Y  
12

**Recommended Prerequisites: Intro to 2D Art, Drawing, Painting, 2D Art 2, and two courses approved by the instructor.**

This College Board-designated class is designed for seniors only who are college-bound art students looking to complete a 2D Design, Drawing, or 3D Portfolio. Several customized paths are designed to offer the specific portfolio needs. Most students will choose additional Painting courses for their 2D Design portfolio work. A minimum of two semesters of Sculpture and two semesters of Ceramics, in addition to Intro, Drawing, will allow students to complete the 3D Design portfolio. Students will complete portfolios containing 24 works digitally recorded and provide five actual pieces of art for the College Board National Committee in early May. After AP review, students may receive college credit. This course requires students to utilize a rigorous out-of-class time requirement which includes at least 2.5 hours of drawing weekly as well as the hours needed to complete the portfolio for the AP requirement. Three written critiques are required per quarter. *This is a weighted course. (Course offered based on requests.)*

PHOTOGRAPHY  
(IDOE#: 4062)  
S  
9, 10, 11, 12

This course teaches the fundamentals of photography through the use of digital cameras, film cameras, and cell phone cameras. From handling the camera to understanding lighting and field depth, students will learn what it means to craft images with excellent composition. The first part of the semester includes studies of photography as an art, with time dedicated to the dark room after making images with 35 mm film cameras (provided for student use). The second nine weeks focuses photojournalism and capturing life as it happens, with an emphasis on reporting, design, and Photoshop. Students will be provided with DSLR cameras to use in class. Students may also bring their own DSLR cameras. *Class size is limited. Taking this course is a pre-requisite for newspaper and yearbook.*
WORLD LANGUAGES

Mandarin Chinese is offered online through MyLanguage360.com. This course requires students to meet online at a pre-arranged time twice a week. Students are responsible for completing the work outside of school as well as costs associated with the course. Fees are determined by the number of MHS students participating. Fees for 2015-2016 were roughly $400 per semester. There is a self-paced option that students can opt to take. This option was $150 per semester. Transfer credits are accepted by Munster High School and appear on student's transcript.

AMERICAN SIGN LANGUAGE I (IDOE#: 2156) Y 10, 11
Must maintain “C-” in semester 1 to remain in the course.
ASL I focuses on the basic vocabulary, structure, and the grammar of receptive and expressive communication, glossing, vocabulary, finger spelling, Deaf culture, history, and the pathological and psychological definitions of deafness.

AMERICAN SIGN LANGUAGE II (IDOE#: 2158) Y 11, 12
Prerequisite: “C-” each semester in ASL I.
ASL II studies advanced structure and grammatical skills used in receptive and expressive communication, story-telling, poetry, glossing of original texts, Deaf culture, history, and the pathological and psychological definitions of deafness. Students are required to interact in the Deaf community.

FRENCH I (IDOE#: 2020) Y 9, 10, 11, 12
Must maintain “C-” in semester 1 to remain in the course.
This course emphasizes basic conversational ability, reading, and writing. Students should be able to speak and understand basic French. Repetition and mimicry of sound patterns are used to develop verbal and listening skills. Course content focuses on such cultural aspects as French customs, geography, history, holidays, and cooking.

FRENCH II (IDOE#: 2022) Y 9, 10, 11, 12
Prerequisite: “C-” in each semester in French I. Must maintain “C-” in semester 1 to remain in the course.
French II presents more advanced grammar and new vocabulary to help students develop advanced conversational skills. Cultural differences between France and America are explored through readings and projects.

FRENCH III (IDOE#: 2024) Y 10, 11, 12
Prerequisite: “C-” in each semester in French II. Must maintain “C-” in semester 1 to remain in the course.
These classes are conducted in French as much as possible. A mastery of the basics is assumed at this level. Reading, writing, and conversation skills are emphasized. French literature is introduced, incorporating reading, pronunciation, translation, discussion, and writing. Concurrent Enrollment- Ivy Tech Community College* (FR 101 and 102) (8 credits total)

ADVANCED FRENCH IV (IDOE#: 2026) Y 11, 12
Prerequisite: “B-” in each semester in French III. Must maintain “C-” in semester 1 to remain in the course.
These classes are conducted primarily in French. The study of French literature is continued, incorporating pronunciation, reading, translation, discussion, and writing skills. An emphasis is placed on reading, writing, and conversational skills. Concurrent Enrollment- Ivy Tech Community College (FR 201 and 202) (6 credits)

ADVANCED FRENCH V (IDOE#: 2028) Y 12
Prerequisite: “B-” in each semester in French IV. Must maintain “C-” in semester 1 to remain in the course.
These classes are conducted primarily in French. Course content focuses on refining skills in literature, grammar, and conversation. Literary selections span the 17th to 20th centuries, from Moliere to Sartre. The course also explores contributions of the French culture. Vocabulary and advanced grammar are covered to help students prepare for the AP French exam and college placement exams.

SPANISH I (IDOE#: 2120) Y 9, 10, 11, 12
Must maintain “C-” in semester 1 to remain in the course. Must maintain “C-” in semester 1 to remain in the course.
The curriculum is designed to: provide basic knowledge of introductory grammar and its usage, both oral and written; develop conversational abilities; elicit correct Spanish pronunciation by studying the Spanish phonetic system; develop elementary composition skills; and provide insights
into many aspects of Central, Latin American, Spanish, and Hispanic American cultures. Students with formal training in Spanish who wish to skip Spanish I and test into Spanish II should contact their counselors. This testing is done at the end of the school year or over the summer.

SPANISH II  
(IDOE#: 2122)  
Y  
9, 10, 11, 12

Perquisite: “C‐” in each semester in Spanish I. Must maintain “C‐” in semester 1 to remain in the course.

Spanish II continues to develop the basic language skills learned in Spanish I. Students are expected to master vocabulary used in everyday situations. Advanced grammatical structures and new vocabulary are introduced to help students develop their conversational skills. The course emphasizes original thinking in the language. Cultural differences and similarities will also be studied.

SPANISH III  
(IDOE#: 2124)  
Y  
10, 11, 12

Perquisite: “C‐” in Spanish II. Must maintain “C‐” in semester 1 to remain in the course.

The mastery of advanced grammar and vocabulary is emphasized as students become more proficient in listening, speaking, reading, and writing. Selections from Spanish and Latin American literature are studied. Students participate in cultural activities designed to increase awareness and understanding of Hispanic culture.

Concurrent Enrollment- Ivy Tech Community College (SPAN 101 and 102) (8 credits total)

ADVANCED SPANISH IV  
(IDOE#: 2126)  
Y  
11, 12

Perquisite: “B‐” in Spanish III. Must maintain “C‐” in semester 1 to remain in the course.

This course is conducted almost entirely in Spanish. It intensively reviews previously mastered grammar and introduces extensive new vocabulary and literature. Reading, writing, and listening skills are stressed. This course provides the groundwork for AP Spanish V and may be suitable for students whose native language is Spanish.

Concurrent Enrollment- Ivy Tech Community College* (SPAN 201 and 202) (6 credits)

AP SPANISH V  
(IDOE#: 2132)  
Y  
12

Recommended: “B‐” in Spanish IV. Must maintain “C‐” in semester 1 to remain in the course.

A literature and composition class conducted in Spanish. The reading selections represent a variety of literary genres: short story, poetry, and non-fiction (journalism, editorials, and essays). Students are expected to discuss these works orally and in writing. Vocabulary and advanced grammar are covered to help students prepare for the AP Spanish exam and college placement exams.

LANGUAGE ARTS

ENGLISH 9 (Required)  
(IDOE#: 1002)  
Y  
9

English 9 is a college- and career-readiness course based on the Indiana Academic Standards of reading, writing, and language study. Students read novels, short stories, drama, nonfiction sections, and poetry. Writing instruction centers on improving student mastery of the 6 +1 Traits of Writing (Idea Development, Organization, Voice, Sentence Fluency, Word Choice, Conventions, and Presentation). Finally, language skills, such as vocabulary and grammar study, are addressed in isolation and in conjunction with reading and writing activities. Although the course is organized in contextual units, all aspects of English study are integrated, particularly speaking and writing units, with the reading material. Finally, English 9 serves as the gateway course to identify and address weaknesses in reading and writing skills before the Grade 10 ISTEP. English 9 meets the graduation requirement for the Core 40 Diploma.

HONORS ENGLISH 9  
(IDOE#: 1002)  
Y  
9

Prerequisite: “B‐” in previous Honors English class and placement based on STM high ability student identification process.

Honors English 9 is a pre-AP, college- and career-readiness course based on the Indiana Academic Standards of reading, writing, and language study. Students read novels, essays, speeches, bio- and autobiographical writing, short stories, drama, and poetry. Writing instruction centers of improving students’ mastery of the 6 +1 Traits of Writing. The composition program is structured, creative, and interpretative and built into the literature units. Language skills, such as vocabulary and grammar study, are addressed both in isolation and in conjunction with reading and writing activities. Formal grammar instruction stresses all areas of language study: syntax, mechanics, usage, and agreement. The course is organized in contextual units; all aspects of English study are integrated, particularly speaking and writing units, with the reading material. Honors English 9 meets the graduation requirement for the Core 40 Diploma.
ENGLISH 9-i  
(IDOE#: 1002) 
9

Placement based on failure of 8th grade English ISTEP, Terra Nova score and/or grades.

English 9-i encompasses a comprehensive study of grammar, short composition, and literature that emphasizes reading, writing, discussion, listening, and speaking activities. Students read several major works, short stories, informational texts, plays, and poems. Formal grammar instruction reviews basic grammar and builds on mastery of grammatical concepts. A weekly study of vocabulary terms is integrated into the class. Although the course is organized into contextual units, all aspects of English study are integrated, particularly the speaking and writing units, which are based on the students’ reading material. Finally, English 9i serves as the gateway course to identify and address weaknesses in reading and writing skills before Grade 10 ISTEP. English 9-i meets the graduation requirement for the Core 40 Diploma.

DEVELOPMENTAL READING  
(IDOE#: 1120) 
9

Taken concurrently with English 9-i.

This class is designed to develop or improve the skills of readers testing below grade level. Skills are developed in vocabulary, reading fluency, silent reading, and reading comprehension. Daily reading in class is required, along with homework assignments. Both the practical and pleasurable aspects of reading are emphasized utilizing the research-based Reading Plus reading program. Reading Plus is a web-based program that transforms how, what, and why students read. It is the only Common Core aligned reading intervention that prepares students to engage with complex texts by developing all three dimensions of successful readers—capacity, efficiency, and motivation.

ENGLISH 10 (Required)  
(IDOE#: 1004) 
10

English 10 is a college- and career-readiness course based on the Indiana Academic Standards of reading, writing, and language study. Students read novels, short stories, drama, nonfiction selections, and poetry. Writing instruction centers on improving student mastery of the 6 +1 Traits of Writing (Idea Development, Organization, Voice, Sentence Fluency, Word Choice, Conventions, and Presentation). Finally, language skills, such as vocabulary and grammar study, are addressed in isolation and in conjunction with reading and writing activities. Although the course is organized in contextual units, all aspects of English study are integrated, particularly speaking and writing units, with the reading material. Finally, the curriculum for English 10 serves to prepare students for the Grade 10 ISTEP. English 10 meets the graduation requirement for the Core 40 Diploma.

HONORS ENGLISH 10  
(IDOE#: 1004) 
10

Prerequisite: “B-” or better in both semesters of previous Honors English class with no failing semester and placement based on STM high ability identification process.

Honors English 10 is a pre-AP college- and career-readiness course based on the Indiana Academic Standards of reading, writing, and language study. Students read novels, essays, speeches, bio- and autobiographical writing, short stories, drama, and poetry. Writing instruction centers of improving students’ mastery of the 6 +1 Traits of Writing. The composition program is structured, creative, and interpretative and built into the literature units. Language skills, such as vocabulary and grammar study, are addressed both in isolation and in conjunction with reading and writing activities. Formal grammar instruction stresses all areas of language study: syntax, mechanics, usage, and agreement. The course is organized in contextual units; all aspects of English study are integrated, particularly speaking and writing units, with the reading material. Honors English 10 serves as the course to diagnose and address gaps in reading and writing before taking the AP English courses. Honors English 10 meets the graduation requirement for the Core 40 Diploma with Honors.

ENGLISH 10-i  
(IDOE#: 1004) 
10

Placement based on 8th grade English ISTEP score and English 9-i teacher recommendation.

English 10i is a college- and career-readiness course based on the Indiana Academic Standards of reading, writing, and language study. Students read novels, short stories, drama, nonfiction selections, and poetry. Writing instruction centers on improving student mastery of the 6 +1 Traits. Language skills, such as vocabulary and grammar study, are addressed in isolation and in conjunction with reading and writing activities. Although the course is organized in contextual units, all aspects of English study are integrated, particularly speaking and writing units, with the reading material. The curriculum for English 10i serves to prepare students for the Grade 10 ISTEP. In addition to the course, English 10i will run with an attached lab class to focus on individual needs in a smaller group setting. Students will use a program called Reading Plus that transforms how, what, and why students read. It is the only Indiana Academic Standards-aligned reading intervention that prepares students to engage with complex texts by developing all three dimensions of successful readers—capacity, efficiency, and motivation. English 10-i meets the graduation requirement for the Core 40 Diploma.
ENGLISH 10 LAB  
(IDOE#: 1010)  
Y  
10

The English 10 Enrichment course is taught concurrently with English 10i. Students taking English 10i are automatically enrolled in the enrichment class, which creates a two-period block for English at the sophomore level. There is no separate curriculum for this course; instead, students deepen their understanding and application of skills learned in English 10i.

ENGLISH ENRICHMENT LAB  
(IDOE#: 1010)  
S  
11, 12

Placement based on failure of the English 10 ISTEP. This course counts as an elective.

English Enrichment Lab is designed for those students who do not pass the English ISTEP, which is a criterion-referenced assessment developed specifically for students completing English 10. The course focuses on testing-taking skills and strategies using online and printed materials. Areas of concentration include comprehension and analysis of nonfiction and informational text and literary text; word recognition, fluency and vocabulary development; and English language conventions. The course counts for elective credit.

ENGLISH 11 (Required)  
(IDOE#: 1006)  
Y  
11

English 11 is a college- and career-readiness course based on the Indiana Academic Standards of reading, writing, and language study. Representing all American literary periods, the reading selections include short fiction, essays, speeches, poetry, novels, and drama. Course readings not only seek to facilitate growth in critical reading, but they also serve to promote literacy of American culture and history. In addition to reading skills, improvement in writing skills becomes a key component to English 11. Continuing with the 6 +1 Traits of Writing, students focus on research methods, citation via the Modern Language Association (MLA), and argumentation structure. These skills culminate into a research paper in the second semester. Finally, language skills, such as vocabulary and mechanics, are addressed both in isolation and in conjunction with reading and writing activities. English 11 meets the graduation requirement for the Core 40 Diploma.

Concurrent Enrollment- Ivy Tech Community College (ENGL 111) (3 credits)  
(Students must take this for dual credit if they wish to take AP Econ, Senior Composition, or World Literature for dual credit senior year.)

AP ENGLISH LITERATURE AND COMPOSITION  
(IDOE#: 1058)  
Y  
11

Recommended Prerequisite: “B” in Honors English 10 or “A” in English 10.

This rigorous, college-level course is intended for the serious, accelerated student. Through careful reading, critical analysis of a cross-section of British, American, and world literature, and extensive writing, students will deepen their understanding of how writers use language to provide meaning and pleasure. Students read novels, poetry, short stories, and plays from a wide range of time periods and cultures. In addition, students write extensively in both informal and formal settings. Students will learn the skills required to successfully complete the objective reading questions and three analytic essays on the AP English Literature and Composition exam in the spring.

Concurrent Enrollment- Purdue Northwest (ENG 104) (3 credits). Both AP English courses count for ENG 104. Students can earn the credits as either juniors or seniors.

NOTE: COMPOSITION AND LITERATURE ARE REQUIRED SENIOR YEAR

COMPOSITION  
(IDOE#: 1098)  
S  
12

This class requires students to complete a variety of writing tasks. Emphasis is placed on mastery of the Six +1 Traits of Writing (Idea Development, Organization, Voice, Word Choice, Sentence Fluency, Conventions, and Presentation). In addition, students learn to skillfully use data and detail, eliminate mechanical and grammatical errors, and create a cohesive composition. Several assignments require the use of research and documentation. Finally, vocabulary instruction occurs in both isolation and integrated with writing activities. Composition concentrates on logical thinking and polished writing style.

Concurrent Enrollment- Ivy Tech Community College (ENGL 215) (3 credits)

AP ENGLISH LANGUAGE & COMPOSITION  
(IDOE#: 1056)  
Y  
12

Recommended Prerequisite: “B” in AP English Literature and Composition or “A” in English 11.

This rigorous college-level class is intended for the serious, accelerated student. This course emphasizes elements of effective writing, especially persuasion, by evaluating a variety of texts, including essays, biographies, literary criticism, autobiographies, journals, and news articles. This course focuses on identifying and discussing the art of rhetoric; students learn to manipulate language for rhetorical effect. Students are expected to write essays in various rhetorical modes and use technology to research and prepare papers. They are also required to participate in class discussions and make class presentations. Students will learn the skills required to successfully complete the objective reading questions and three analytic essays on the AP English Language and Composition exam in the spring.

Concurrent Enrollment- Purdue Northwest (ENG 104) (3 credits). Both AP English courses count for ENG 104. Students can earn the credits as either juniors or seniors.
ENGLISH LITERATURE  
(IDOE#: 1030)  S  12

English Literature is a college- and career-readiness course based on the Indiana Academic Standards of reading literature and informational text. Students explore British literary works from several authors spanning multiple genres: poetry, essays, short stories, plays, and novels. These works are approached through historical periods of English history: the Middle Ages, the Renaissance, the Age of Enlightenment, the Romantic Period, the Victorian Period, and literature of the twentieth century. Attention is given to different cultural settings and varying styles of literary expression. Major works include Beowulf, The Canterbury Tales, Macbeth, and Wuthering Heights. A semester course, English Literature meets the graduation requirement for the Core 40 Diploma.

WORLD LITERATURE  
(IDOE#: 1124)  S  12

World Literature is a college- and career-readiness course based on the Indiana Academic Standards of reading literature and informational text. Students analyze a variety of literary genres covering an expanse of time from early Mesopotamia to the present. The approach is chronological, starting with ancient Mesopotamia and moving on to Ancient Greece, the Middle Ages, the 19th century and finally to the modern era. Course readings not only seek to facilitate growth in critical reading, but they also serve to promote literacy of culture and history. A semester course, World Literature meets the graduation requirement for the Core 40 Diploma. 

Must complete English 11 (ENGL 111) through Ivy Tech to qualify for ENGL 206

SPEECH  
(IDOE#: 1076)  S  9, 10, 11, 12

Speech is designed to help students speak and listen more effectively, intelligently, and responsibly. The overall goal of the course is to produce students who can communicate effectively one-on-one, in small groups, or in a large-group setting. Skills taught include interpretive reading, speech etiquette, body motion, voice usage, research, organization of materials, group dynamics, parliamentary procedure, job interviewing, and the art of persuasion. Speech meets the speech communications graduation requirement for Munster High School.

ADVANCED SPEECH  
(IDOE#: 1078)  S  9, 10, 11, 12

No prerequisite; Course is not weighted; Students have to participate in 3-4 meets and regular practices.

Advanced Speech Communications is for those who participate in competitive speech. Students are required to attend 3-4 meets during the semester and regular after-school practices. Students are introduced to all categories of competitive speaking and will be assigned at least two speeches per competition. Instruction is individualized based on competition category. In addition, students learn the fundamentals of public speaking, including speech etiquette, body motion, voice usage, research, organization of materials, group dynamics, parliamentary procedure, job interviewing, and the art of persuasion. Evaluation is based on class work, application of effective speech techniques, improvement in skills, and tournament performances. This course can be taken one time only. Concurrent Enrollment-Ivy Tech Community College (COMM 101) (3 credits)

DEBATE  
(IDOE#: 1070)  S  9, 10, 11, 12

Debate introduces the fundamentals of policy debate, Lincoln-Douglas debate, public forum debate, and Student Congress simulation. National debate resolutions will be used in the formation of affirmative and negative cases; students are expected to debate both sides of the resolution in class. Students will learn to create logical, persuasive arguments in a persuasive speaking environment, and they will be encouraged to participate in extracurricular competition.

COMPETITIVE DEBATE  
(IDOE#: 1070)  S  10, 11, 12

Prerequisite: Prior debate experience (class or competitive) and participation in co-curricular debate competition in the fall OR successful completion of the introductory debate class.

Students will refine debate skills and are expected to participate in extracurricular debate at least three times a semester. Advanced debaters will participate in independent collaborative projects, advanced research activities, and will mentor novice debaters.

CREATIVE WRITING  
(IDOE#: 1092)  S  9, 10, 11, 12

Prerequisite: "C-" in previous semester of English

Creative Writing provides an opportunity for students to write—and read—forms of writing outside the traditional English curriculum. Students will write every day, both in-class and at home, and receive criticism from one another and their instructor. Students will also read a variety of different forms and genres as inspiration for their own writing. This course utilizes a journaling system that deems the creativity of writers. It will also focus on developing a rigorous set of criteria for literary publishing. Students work to create Munster High School’s literary magazine, Pegasus, for digital publication at the end of the semester.

<tr>
<td><strong>JOURNALISM</strong></td>
<td>S</td>
<td>Prerequisites: Writers need Journalism and Teacher Rec. Photographers need Photography and Teacher Rec.</td>
</tr>
<tr>
<td><strong>STUDENT MEDIA: NEWS 1</strong></td>
<td>Y (9, 10, 11, 12)</td>
<td>Students who have successfully completed Journalism will work as entry-level reporters for the newspaper staff, shadowing the more senior staffers to see how Crier, the school newspaper, functions. Students who have taken Photography will master photo storytelling techniques as they work on photo composition while photographing school events for the student newspaper and all its digital components. All students in News 1 will work on basic reporting, design and planning for the newspaper that prints every three weeks. This class is co-curricular and requires work time after school. <em>Counts as a Fine Arts Credit</em></td>
</tr>
<tr>
<td><strong>STUDENT MEDIA: ADV NEWS 2</strong></td>
<td>Y 11, 12</td>
<td>Designed as a laboratory course for the production of the student newspaper and its website, this advanced writing and editing course will stress newspaper fundamentals, trends, organization, financing, and desktop skills (using InDesign and PhotoShop). Advanced journalistic writing and editing skills are further refined through advanced interviewing and research expertise; in-depth writing with multiple sources for balance and verification; feature writing; and column and review writing. All students write a variety of stories for each issue as well as determine coverage, design, and editing. This class is co-curricular and requires work time after school. <em>Counts as a Fine Arts Credit</em></td>
</tr>
<tr>
<td><strong>STUDENT MEDIA: ADV NEWS 3</strong></td>
<td>Y 12</td>
<td>Open to third-year students/editors on the newspaper staff, this course focuses on advanced writing and editing skills. Emphasis will be placed on interviewing and research, developing a writing style, writing persuasively for columns and editorials, applying legal and ethical knowledge in decision making and problem solving, copy editing, coaching writers, as well as utilizing advanced computer skills in InDesign and Photoshop to enhance design and photographic editing. This class is co-curricular and requires work time after school. <em>Counts as a Fine Arts Credit</em></td>
</tr>

HONORS ALGEBRA II (IDOE#: 2522) Y 10, 11, 12
Prerequisite: “B-” in both semesters in Honors Geometry or placement based on STM high-ability identification process.
Honors Algebra II emphasizes the same computational skills, deductive reasoning, and mathematical concepts as Algebra II but differs in the amount and depth of material covered. Special attention is given to solving higher-level equations, exponential and logarithmic functions, basic probability and statistics, and applications.

PRE-CALCULUS/TRIGONOMETRY (IDOE#: 2564) Y 11, 12
Prerequisites: “B-” in both semesters in Algebra II
Pre-Calculus topics include: polynomial functions, rational and algebraic functions, logarithmic and exponential functions, vectors, conic sections, trigonometry and trigonometric functions, polar graphing, and complex numbers. Pre-Calculus emphasizes concepts and skills that must be mastered prior to enrolling in a calculus course. It is recommended that students have a TI-83 or TI-84 graphing calculator for use at home.
Concurrent Enrollment-Ivy Tech Community College (MA 136/137) (6 credits)

HONORS PRE-CALCULUS/TRIGONOMETRY (IDOE#: 2564) Y 11, 12
Prerequisite: “B-” in both semesters in Honors Algebra II or placement based on STM high-ability student identification process.
Honors Pre-Calculus emphasizes the same reasoning skills and mathematical concepts as Pre-Calculus, but differs in the amount and depth of material covered. Special attention is given to extending concepts and proofs, including derivations of the conic sections, laws of logarithms, and trigonometric identities. It is recommended that students have a TI-83 or TI-84 graphing calculator for use at home.
Concurrent Enrollment-Ivy Tech Community College (MA 136/137) (6 credits)

TRIGONOMETRY (IDOE#: 2566) S 11, 12
Prerequisite: “C-” in both semesters in Algebra II.
Class topics include: six trigonometric functions and their relationships on the unit circle; identities; graphs and their applications; six trigonometric inverse functions; the solutions of triangles using laws of sines and cosines; complex numbers; polar graphing; vectors; and conic sections. A graphing calculator is recommended for use at home.
Concurrent Enrollment-Ivy Tech Community College (MA 137) (3 credits)

PROBABILITY & STATISTICS (IDOE#: 2546) S 11, 12
Prerequisite: Passed both semesters of Algebra II.
Probability and Statistics topics include: displaying data; frequency distribution; measures of central tendency—mean, median, mode and their characteristics; summarizing data; measures of dispersion and range; mean deviation and variance standard deviation; describing individual performances; and standard scores and norms.

AP STATISTICS (IDOE#: 2570) Y 11, 12
Recommended Prerequisite: “B-” in both semesters in Algebra II or “C-” in both semesters in Honors Algebra II.
This course introduces the major concepts and tools for collecting, analyzing, and drawing conclusions about data. Students will be exposed to four broad conceptual themes: exploring data, planning a study, anticipating patterns, and statistical inference. This course is equivalent to a one semester college statistics course. It is recommended that students have a TI-83 or TI-84 graphing calculator for use at home. Students enrolling in AP courses for mathematics are required to complete the AP exam. (Q.R. Course)
Concurrent Enrollment-Purdue Northwest (STAT 301) (3 credits)

AP CALCULUS AB (IDOE#: 2562) Y 11, 12
Recommended Prerequisite: “B-” in both semesters in Pre-Calculus or “C-” in both semesters in Honors Pre-Calculus.
The course focuses on the three Big Ideas identified by the College Board. The course begins with the study of limits and derivatives including their applications to problem solving. The third Big Idea focuses on the integral—first using limits and later formalized using specific rules. The remainder of the course builds integration techniques and stresses applications. Excellent algebra skills and graphing calculator mastery is essential. This course is equivalent to one semester of college calculus and provides students with the knowledge to take the AP Calculus AB exam. Students are expected to take the AP Calculus AB exam. It is recommended that students have a TI-83 or TI-84 graphing calculator for use outside of class. (Q.R. Course) Concurrent Enrollment-Ivy Tech Community College (MA 211) (3 credits)

AP CALCULUS BC (IDOE#: 2572) Y 11, 12
Recommended Prerequisite: “A-” in both semesters in Pre-Calculus or “B-” in both semesters in Honors Pre-Calculus.
This course is equivalent to a full-year college-level calculus course in the calculus functions of a single variable. Includes all areas covered in Calculus AB plus the applications of parametric equations, polar functions, and Taylor Polynomials. Graphing calculator use is an integral part of the course. It is recommended that students have a TI-83 or TI-84 graphing calculator for use at home. Students enrolling in AP courses for mathematics are expected to complete the AP exam. (Q.R. Course)
Concurrent Enrollment- Ivy Tech Community College (MA 211 & 212) (6 credits)
PHYSICAL EDUCATION

PHYSICAL EDUCATION I (Required)  (IDOE#: 3542)  S  9, 10, 11, 12
Prerequisite: School physical.
PE I emphasizes health-related fitness and the development of skills and habits necessary for a lifetime of healthy activity. This course concentrates on skill development and the application of rules and strategies. Swimming is a semester 1 requirement. PE 1 is offered in summer school. Students cannot exceed 22 days of missed classroom activity. These days include absences, illness, and injury. When students reach 22 days of missed activity, they will be removed from the class and are required to repeat.

PHYSICAL EDUCATION II (Required)  (IDOE#: 3544)  S  9, 10, 11, 12
Prerequisite: School physical.
PE II emphasizes a personal commitment to lifetime activity and fitness for enjoyment, challenge, self-expression, and social interaction. This course stresses achieving and maintaining a health-enhancing level of physical fitness and increased knowledge of fitness concepts through different movement forms. Students cannot exceed 22 days of missed classroom activity. These days include absences, illness, and injury. When students reach 22 days of missed activity, they will be removed from the class and are required to repeat.

WEIGHT TRAINING  (IDOE#: 3560)  S  10, 11, 12
Prerequisite: Physical Education I and II.
This class offers instruction in the techniques of weight training to improve general physical fitness. Lifting programs for strength, power, endurance, and contour are adapted to suit the needs of the individual. Olympic free weights and various weight machines are used. Students weight train four days a week and work on conditioning/fitness on the fifth day. Students who elect to repeat this course must have earned at least a B- previously.

HEALTH AND WELLNESS (Required)  (IDOE#: 3506)  S  10, 11, 12
Prerequisite: Biology I must be completed before taking Health and Wellness. Most take this in 10th grade.
This course is designed to develop healthful attitudes and practices based on sound knowledge of the mind and body. Areas covered include: human anatomy and physiology, first aid and safety, human reproduction and development, drug education, mental health, and disease.

SCIENCE

EARTH/SPACE SCIENCE I  (IDOE#: 3044)  Y  9, 10, 11, 12
This course investigates the cause-and-effect relationships between the four branches of earth science: geology, oceanography, astronomy, and meteorology. A major theme is the universality of change—from weather and the rock cycle through plate tectonics to postulated changes in the make-up and arrangement of the universe. Laboratory investigations, use of technology, research methodologies, and evaluation measures will develop and foster inquiry skills.

BIOLOGY I (Required)  (IDOE#: 3024)  Y  9, 10, 11, 12
This course is an introductory life science course in which students explore the functions and relationships of living things and their effect on humans. Students develop scientific inquiry methods in a laboratory environment. Topics include: cell biology and chemistry, uni- and multi-cellular organisms, reproduction, genetics, evolution, and ecology. At the end of this course, students will participate in the high school ISTEP Science assessment.

HONORS BIOLOGY I  (IDOE#: 3024)  Y  9
Prerequisites: “B-” in 8th grade honors science or placement based on STM high-ability identification process.
This is an accelerated course with special emphasis on cellular and molecular biology. It is an excellent interface for students who plan to take Honors Chemistry and AP Biology. The course is only offered at WWMS. Students who qualify for this course are required to take a study hall to allow for traveling.

PROJECT LEAD THE WAY: PRINCIPLES OF THE BIOMEDICAL SCIENCES (PBS)
Prerequisites: Concurrently enrolled in Biology.
*Federal funding requires the disclosure of student social security number to enroll in this class.
Students investigate various health conditions including heart disease, diabetes, sickle-cell disease, hypercholesterolemia, and infectious diseases. They determine the factors that led to the death of a fictional person, and investigate lifestyle choices and medical treatments that might have prolonged the person’s life. The activities and projects introduce students to human physiology, medicine, and research processes. This course provides an overview of all the courses in the Biomedical Sciences program and lays the scientific foundation for subsequent courses.
### PROJECT LEAD THE WAY: HUMAN BODY SYSTEMS (HBS)  (IDOE#: 5216)  
**Y**  
10, 11, 12  
**Prerequisites:** PLTW Principles of Biomedical Sciences with a 70% or higher  
**Prerequisites:** Student who completed Anatomy and Physiology can be considered for this course.  
*Federal funding requires the disclosure of student social security number to enroll in this class.*

Students examine the interactions of human body systems as they explore identity, power, movement, protection, and homeostasis. Students design experiments, investigate the structures and functions of the human body, and use data acquisition software to monitor body functions such as muscle movement, reflex and voluntary action, and respiration. Exploring science in action, students build organs and tissues on a skeletal manikin, work through interesting real world cases and often play the roles of biomedical professionals to solve medical mysteries. This course is designed for 10th or 11th grade students.

### PROJECT LEAD THE WAY: MEDICAL INTERVENTIONS (MI)  (IDOE#: 5217)  
**Y**  
10, 11, 12  
**Prerequisite 1:** PLTW Principles of Biomedical Sciences with a 70% or higher.  
**Prerequisite 2:** PLTW Human Body Systems or Anatomy and Physiology with a 70% or higher.  
*Federal funding requires the disclosure of student social security number to enroll in this class.*  
*This is a weighted course starting 2017-2018.*

Students investigate a variety of interventions involved in the prevention, diagnosis and treatment of disease as they follow the life of a fictitious family. The course is a “How-To” manual for maintaining overall health and homeostasis in the body. Students explore how to prevent and fight infection; screen and evaluate the code in human DNA; prevent, diagnose and treat cancer; and prevail when the organs of the body begin to fail. Through these scenarios, students are exposed to a range of interventions related to immunology, surgery, genetics, pharmacology, medical devices, and diagnostics.

### INTEGRATED CHEMISTRY-PHYSICS  
(IDOE#: 3108)  
**Y**  
10, 11, 12  
**Prerequisites:** Passing grade in Algebra I.

The intent is to offer a course for the students to learn the physical laws of nature as the second year of science. These students are the non-traditional Chemistry and/or Physics students with math skills not ready to do computations for Chemistry or Physics. Topics will include Motion, Newton’s Laws, Energy, Electricity, Magnetism, Matter, Atoms, Chemical Bonds, Solutions, Acids, Bases, Salts and Organic Molecules. *(Q.R. Course)*

### CHEMISTRY I  
(IDOE#: 3064)  
**Y**  
9, 10, 11, 12  
**Prerequisites:** “C-” in Biology and “C-” in Algebra I

This course introduces modern chemical theory and follows a qualitative approach to investigating the theories and principles of modern chemistry. Included are lectures, discussions, mathematical treatment of chemical theories, and lab work. *(Q.R. Course)*

### HONORS CHEMISTRY  
(IDOE#: 3064)  
**Y**  
9, 10, 11, 12  
**Prerequisite:** “B-” both semesters in Honors Biology or placement based on STM high ability identification process.

This course introduces modern chemical theory and follows a qualitative approach to investigating the theories and principles of modern chemistry. This course has established higher standards and expectations than the general curriculum. Students enrolled will be expected to develop refined and advanced critical thinking skills and apply these to examinations, presentations, projects and laboratory experiments. The mathematics of this course are geared toward students who are more proficient in the subject, and a strong algebra I foundation is recommended. Finally, Honors Chemistry strongly prepares students for AP chemistry as they will explore additional topics not covered in general chemistry such as thermochemistry, atomic bonding and equilibrium that often require students to think about abstract concepts. Honors Chemistry meets the graduation requirement for all diplomas. *(Q.R. Course)*

### AP CHEMISTRY  
(IDOE#: 3060)  
**Y**  
10, 11, 12  
**Recommended Prerequisites:** “B-” in both semesters of Chemistry, “B-” in both semesters of Algebra 2, concurrent enrollment or completion of Physics I.

This course is the equivalent to a first-year college chemistry course. Emphasis is placed on chemical calculations, the mathematical formulation of principles, and advanced laboratory work. The course will prepare students to take the AP exam. *(Q.R. Course)*

### PHYSICS I  
(IDOE#: 3084)  
**Y**  
10, 11, 12  
**Prerequisites:** Grade 10; completion of Algebra I

An introduction to general physics, which includes classical mechanics, heat, waves, electricity and magnetism, and optics. The emphasis is on lab work and problem solving. Math skills beyond first-year algebra include some second-year algebra and basic trigonometry; those concepts will be taught in the class. *(Q.R. Course)*

### HONORS PHYSICS I  
(IDOE#: 3090)  
**Y**  
10, 11, 12  
**Prerequisites:** “B-” in Honors Biology and “B-” in Honors Geometry and concurrently enrolled in Algebra II or placement based on STM high-ability identification process.

This course covers all the material in Physics I, plus additional units on equilibrium, fluids, nuclear physics, special relativity, and modern physics. The pace is accelerated and the mathematics is more involved than in Physics I. *(Q.R. Course)*
AP PHYSICS C, MECHANICS  
(IDOE#: 3090)  
S  
11, 12
Recommended Prerequisites: Completion of Physics I or Honors Physics
This course covers calculus-based Newtonian mechanics on a level typical of a first-semester science or engineering major at a competitive university, including: kinematics, forces, energy, momentum, rotation, gravitation, and simple harmonic motion. Students are prepared to take the AP exam.  (Q.R. Course)

AP PHYSICS C, ELECTRICITY AND MAGNETISM  
(IDOE#: 3088)  
S  
11, 12
Recommended Prerequisites: Completion of Physics I or Honors Physics
The course covers calculus-based electromagnetism on a level typical of a second-semester science or engineering major at a competitive university, including electrostatics, electric potential, RC/RL circuits, and magnetism, with emphasis on Maxwell’s equations. Students are prepared to take the AP exam.

BOTANY  
(IDOE#: 3026)  
S  
9, 10, 11, 12
Prerequisites: “C” in Biology
A branch of biology, this course undertakes the study of plants, including plant anatomy and physiology. Lab work will examine the microscopic structure of plants and cover practical applications of plant growth and development. Students will apply concepts by learning to care for plants in the school’s courtyard and greenhouse.

ZOOLOGY  
(IDOE#: 3026)  
S  
9, 10, 11, 12
Prerequisites: “C” in Biology
As a branch of biology, this course undertakes the study of animals, surveying major animal phyla and classes. Comparative anatomy and physiology of the animal world and how animal systems compare to human systems are examined. There is a minimum of nine different required dissections of specimens throughout the course, including organisms such as a fetal pig, bullfrog, dogfish shark, squid, arthropods, and various worms. These are utilized as a study tool vital for the analysis of anatomy and physiology between the animal phyla and classes studied throughout the course.

AP ENVIRONMENTAL SCIENCE  
(IDOE#: 3012)  
Y  
10, 11, 12
Recommended Prerequisites: “B” in Biology; “B” in Chemistry or Physics. “C” in Honors Biology and Honors Chemistry or Honors Physics.
This course is designed to provide students with the principles, concepts and methodologies required to understand the interrelationships of the natural world, to identify and analyze environmental problems both natural and human caused, to evaluate the relative risks associated with these problems, and to examine alternative solutions for resolving or preventing them. This course is interdisciplinary.  (Q.R. Course)

ENVIRONMENTAL SCIENCE: PROJECT BIO  
(IDOE#: 3010)  
Y  
10, 11, 12
Prerequisites: “C” both semesters in Biology and an exemplary discipline record.
Note: This is not an honors-level course. Project Bio is an interdisciplinary class based on ecology and geology that stresses the impact of human society on natural ecosystems. Students will analyze the consequences of ecosystem abuses and the benefits of its maintenance. Units include marine biology, land use, oceanography, sociology, and economics. The class includes two field experiences: a visit to the Indiana Dunes and spring break in Florida at Big Pine Key. This class requires a minimum of 20 students to be offered. This course carries additional fees.

HUMAN GENETICS  
(IDOE#: 3026)  
S  
9, 10, 11, 12
Prerequisites: “C” in Biology
Human genetics introduces students to basic and advanced principles of genetics. Topics include an introduction to cells, cell division, protein synthesis, transmission of genes from generation to generation, pedigree analysis, genetic screening, cytogenetics, population genetics, development and sex determination, and legal and bioethical aspects of genetics.

ANATOMY AND PHYSIOLOGY  
(IDOE#: 5276)  
Y  
9, 10, 11, 12
Prerequisites: “C” in Biology
*Federal funding requires the disclosure of student social security number to enroll in this course.
This course is designed to enhance the student’s understanding of human biology. The material focuses on the interrelationships of structure and function, with an emphasis on muscles and the skeletal system. The course is useful for students intending to enter health occupations.
ADVANCED MICROBIOLOGY (IDOE#: 3026)  S  9, 10, 11, 12

Prerequisite: "C-" in Biology.

Microbiology is the study of microorganisms and their effects on other organisms. Topics include an introduction and history of microbiology, disease and epidemiology, microscopy, cellular chemistry, functional Anatomy of cells, microbial metabolism, microbial growth and control mechanisms, virus, and eukaryotes.

AP BIOLOGY (IDOE#: 3020)  Y  9, 10, 11, 12

Recommended Prerequisites: “B-” in Biology I.

The course is divided into molecular and cellular biology and includes: cells, enzymes, energy transfers in cells, cell division, the chemical nature of genes, and origins of life. Also covers plant and animal reproduction and development, hereditary evolution, ecology, and behavior of the organism. It is recommended that this class be taken during senior year. It is helpful to have completed Honors Microbiology, Anatomy and Physiology, or Human Genetics. (Q.R. Course)

HOSPITAL INTERNSHIP (IDOE#: 5974)  S  12

Students must complete a sequence of courses to be eligible for an internship opportunity with Munster Community Hospital. Please see brochure.

Munster High School partners with Community Hospital to allow selected students access to an internship program. Areas of focus can include the following: Pharmacy, Radiology, Laboratory Study, Endoscopy, Maternal Child, Cath Lab, Nursing, Biomedical Sciences, Physical Therapy, and Respiratory Therapy. Students interested in participating in the internship should declare their interests as incoming freshmen so that their schedules can meet the pathway requirements. This multi-period class schedules in a block either at the beginning or end of the school day. Students violating school rules or expectations will be removed from internships. Intern applicants will be reviewed for grades, course work, attendance and discipline records. If interest exceeds availability, the most qualified students will be selected.

SOCIAL STUDIES

AP HUMAN GEOGRAPHY (IDOE#: 1572)  Y  9, 10, 11, 12

Recommended Prerequisites: An “A-” in previous social studies course and an “A-” in previous English course.

AP Human Geography introduces students to the systematic study of patterns and processes that have shaped human understanding, use, and alteration of Earth’s surface. Students employ spatial concepts and landscape analysis to examine culture, human social organization and its environmental consequences. They also learn about the methods and tools geographers use in their science and practice. This course is equivalent to a semester college course and prepares students to take the AP exam providing the student the opportunity to receive college credit.

WORLD GEOGRAPHY (IDOE#: 1546)  S  9, 10, 11, 12

This course relates physical geography to the economic, political, social, and cultural aspects of human activity. Students learn about major landforms, bodies of water, climate regions, natural vegetation, cultural heritage, population densities, uses of land, transportation, and communication. Units include: the Americas, Europe, the Middle East, Africa, and Asia.

ANCIENT WORLD HISTORY & CIVILIZATION (Required) (IDOE#: 1548)  S  9, 10, 11, 12

Political, economic, religious, philosophical, and cultural development is traced from prehistoric times through the medieval period. Course content concentrates on the areas and concepts primarily responsible for the development of Western and Eastern traditions. Special emphasis is placed on the study of Ancient Greece.

MODERN WORLD HISTORY & CIVILIZATION (Required) (IDOE#: 1548)  S  9, 10, 11, 12

Political, economic, and cultural development is traced from the Renaissance through the 21st Century. Curriculum focuses on the concepts that contributed most to the development of Western and Eastern traditions, including capitalism, nationalism, democracy, and totalitarianism.

INDIANA STUDIES (IDOE#: 1518)  S  9, 10, 11, 12

Indiana Studies is an integrated course that compares and contrasts state and national developments in the areas of politics, economics, history, and culture. The course uses Indiana history as a basis for understanding current policies, practices, and state legislative procedures. It also includes the study of state and national constitutions from a historical perspective and as a current foundation of government. Examination of individual leaders and their roles in a democratic society will be included, and students will examine the participation of citizens in the political process. Selections from Indiana arts and literature may also be analyzed for insights into historical events and cultural expressions. This is an elective course for all diplomas. It does not meet a social studies graduation requirement. (Course offered based on requests.)
ETHNIC STUDIES (IDOE#: 1516)  S 9, 10, 11, 12
Ethnic Studies provides opportunities to broaden students’ perspectives concerning lifestyles and cultural patterns of ethnic groups in the United States. This course will either focus on a particular ethnic group or groups, or use a comparative approach to the study of patterns of cultural development, immigration, and assimilation, as well as the contributions of specific ethnic or cultural groups. The course may also include analysis of the political impact of ethnic diversity in the United States. This is an elective course for all diplomas. It does not meet a social studies graduation requirement. (Course offered based on requests.)

U.S. HISTORY (Required) (IDOE#: 1542)  Y 11
U.S. History is the study of American history with an emphasis on national development from 1800 to the present. After reviewing themes fundamental to the early development of the nation, students study key events, individuals, groups, and movements as they relate to life in the United States and the State of Indiana.

AP U.S. HISTORY (IDOE#: 1562)  Y 11
Recommended Prerequisites: “A-” in a previous history course and “B-” in Honors English 10 or “A-” in English 10.
This course covers political institutions, public policy, social change, cultural and intellectual developments, diplomacy and international relations, and economic developments. It provides students with the factual base and analytical skills to deal critically with historical problems. This course is equivalent to a full-year introductory college course and prepares students to take the AP exam and to receive college credit
Concurrent Enrollment- Ivy Tech Community College (HIST 1011 & 102) (6 credits)

PSYCHOLOGY (IDOE#: 1532)  S 11, 12
This course provides the scientific basis for understanding human behavior. Topics include learning, memory, personality, problem-solving, perception, stress and coping, motivations and emotions, the brain and behavior, mental health and mental illness. Course content acquaints students with careers that require a background in and understanding of psychology.

AP PSYCHOLOGY (IDOE#: 1558)  Y 11, 12
Recommended Prerequisites: “A-” in a previous history course and “B-” in Honors English or “A-” in English.
AP Psychology introduces students to the systematic and scientific study of behavior and mental processes in humans and animals. Students are exposed to the following areas: research, biology, sensation, perception, state of consciousness, learning, cognition, motivation, emotion, personality, intelligence, psychological disorders, treatment of psychological disorders, and social psychology. The course prepares students for the AP exam.
Concurrent Enrollment- Ivy Tech Community College (PSYC 101) (3 Credits)

U.S. GOVERNMENT (Required) (IDOE#: 1540)  S 12
The primary goal of this course is to make students aware of their rights and responsibilities as citizens in a democratic society. The course examines the organization and duties performed by the executive, legislative, and judicial branches of the federal government. It also emphasizes the political process, individual civil liberties, and state and local government. Verbal and writing skills are emphasized and evaluated.

AP U.S. GOVERNMENT (IDOE#: 1560)  S 12
Recommended Prerequisites: “B-” in AP U.S. History or “A-” in U.S. History and B- in AP English or “A-” in English 11.
This course provides an in-depth analysis of the U.S. government and politics. Subjects covered include political beliefs and behaviors, political parties, interest groups, mass media, Congress, the presidency, federal courts, and civil right and liberties. Students are prepared to take the AP exam for college credit.
Concurrent Enrollment-Ivy Tech Community College (POL 101)* (3 Credits)

ECONOMICS (Required) (IDOE#: 1514)  S 12
Economics examines the allocation of scarce resources and the economic reasoning used by consumers, producers, savers, investors, workers, voters, and government agencies. Key elements include the study of scarcity, supply and demand, market structures, the role of government, money and the role of financial institutions, economic stabilization, and trade. Students participate in the Stock Market Game, an investing simulation, sponsored by the Indiana Council on Economic Education. (Q.R. Course)
AP ECONOMICS (IDOE#: 1564) S 12

Recommended Prerequisites: “B−” in Algebra II and “B−” in A.P. U.S. History or “A−” both semesters in U.S. History.

AP Economics (Microeconomics) examines how individuals, firms, and organizational structures make economic decisions. The curriculum focuses on the concept of supply and demand to demonstrate how: market prices are determined; those prices influence an economy’s allocation of goods and services; factors of production are allocated in the production process; goods and services are distributed throughout the economy. Students learn to evaluate the strengths and weaknesses of economic decision makers based on the concepts of efficiency and equity, and the effects of government intervention on a free-market economy. Students are prepared to take the AP exam. (Q.R. Course)

Concurrent Enrollment- Ivy Tech Community College (ECON 202)* (3 credits)
Must complete or be enrolled in Ivy Tech ENGL 111. Students who completed ENGL 104 through PNW are eligible, but they must send transcripts to Ivy Tech.

SOCIOMETRY (IDOE#: 1534) S 11, 12

This course introduces students to the concepts and methods used by sociologists to study people in society, social institutions, and social relationships. Students will compare various cultures and their values, and examine such topics as socialization, group behavior, and the process of change. Student participation, discussion, and feedback are expected. Priority will be given to seniors requesting the course.

ADVANCED SOCIOLOGY (IDOE#: 1534) S 12

Prerequisites: “B−” in AP English or “A−” in English 11 and “B−” both semesters in U.S. History.

Advanced Sociology integrates the basics of sociology with a detailed examination of social psychology, social cognition, prejudice and racism, conformity, and human aggression. Designed to broaden a student’s social awareness and understanding of the problems any society could face. Course includes required readings, research, and discussion. Student participation, public speaking, and feedback are expected.

PRE-ENGINEERING AND TECHNOLOGY EDUCATION

PROJECT LEAD THE WAY I: Intro to Engineering Design (IDOE#: 4812) Y 9, 10, 11, 12

*Federal funding requires the disclosure of student social security number to enroll in this class.

This introductory course develops student problem-solving skills with emphasis on 3-dimensional solid models utilizing the latest version of INVENTOR software design package. Students learn how the problem-solving design process is used in industry to manufacture a product. Students will work through the design process simulating the work of an engineer, from notebook sketches to the final product. Topics include: design process, technical sketching, measurement and statistics, geometric shapes and solids, dimensions and tolerances, modeling skills, reverse engineering, and engineering design ethics. This course is meant for students who would like to explore a possible career in engineering. Students will have the ability to test for Autodesk industry certification using the INVENTOR software. (Q.R. Course)

Concurrent Enrollment- Ivy Tech (DESN 102)*

PROJECT LEAD THE WAY II: Digital Electronics (IDOE#: 4826) Y 9, 10, 11, 12

*Federal funding requires the disclosure of student social security number to enroll in this class.

Digital Electronics is a course in applied logic that encompasses the application of electronic circuits and devices. Computer simulation software is used to design and test digital circuitry prior to the actual construction of circuits and devices. (Q.R. Course)

Concurrent Enrollment- Ivy Tech (EECT 112)*

PROJECT LEAD THE WAY III: Civil Engineering & Architecture (IDOE#: 4820) Y 10, 11, 12

Prerequisite: “C−” in both semesters in IED.

*Federal funding requires the disclosure of student social security number to enroll in this class.

* This is a weighted course starting 2017-2018.

This course introduces students to the interdependent fields of civil engineering and architecture; students learn project planning, site planning, and building design. Topics include: Surveying, landscaping, water supply and wastewater control, architectural styles, floor plans, elevations, details and sections, mechanical systems, energy systems, electrical systems, protection systems, structural engineering, roof systems, columns and beams, foundations. The latest version of INVENTOR, REVIT, and MDSOLIDS will be used in this course.

Concurrent Enrollment- Ivy Tech (DESN 105)*

PROJECT LEAD THE WAY IV: PRINCIPLES OF ENGINEERING (POE) (IDOE#: 4814) Y 11, 12

*Federal funding requires the disclosure of student social security number to enroll in this class.

* This is a weighted course starting 2017-2018.

Prerequisite: “C−” in IED both semesters. Must have teacher approval if you have not taken IED. Must have completed/currently taking Trig & Physics.

Students will explore technology systems and engineering processes to learn how math, science, and technology impact daily life. Topics include: types of engineering, sketching, technical writing, product development, engineering systems, statics, materials, material testing, reliability of
engineering, dynamics and kinematics. Strong math and science skills are essential to success in this course. The latest version of INVENTOR, Bridge Builder, RoboPro, MDSOLIDS, and Fischertechics will be used in this course. Students will have the ability to test for Autodesk industry certification using the INVENTOR software. *(Q.R. Course)*

**Concurrent Enrollment- Ivy Tech (DESN 104)***

**STEM CAPSTONE: PURDE UNIVERSITY NORTHWEST INTERNSHIP (IDOE#: 5974)**

*Federal funding requires the disclosure of student social security number to enroll in this class.*

Prerequisite: PLTW Introduction to Engineering Design and PLTW Digital Electronics AND EITHER PLTW Civil Engineering & Architecture OR PLTW Principles of Engineering. Please see brochure.

This course offers Munster students a unique opportunity to intern with STEM professors at Purdue University Northwest. Students need to provide their own transportation. Students should declare interest early in their high school careers so counselors can ensure that the proper coursework has been completed. This multi-period class schedules in a block either at the beginning or end of the school day. *Students violating school rules or expectations will be removed from internships. Intern applicants will be reviewed for grades, course work, attendance and discipline records. If interest exceeds availability, the most qualified students will be selected.*

**MULTIDISCIPLINARY**

**PEER TUTORING (IDOE#: 0520)**

This course is designed to inform students about various disabilities and to foster a change in attitude toward disabled persons. Tutors help instruct their disabled peers while learning about their physical and academic limitations. Tutors are required to complete reading and writing assignments, and promote inclusion of this population in the school and community at large. Peer tutoring is recommended for students who are interested in education or special education as a career. Underclassmen may take this course with a teacher recommendation. Class size is limited. Students are only allowed to take Peer Tutoring for a maximum of 2 credits in high school.

**1:1 MEDIA ASSISTANT (IDOE#: 1082)**

Prerequisites: Two (2) recommendations from Munster High School teachers.

Students will learn how to be 1:1 Media Assistants while also earning a high school elective credit. Media assistants are the first point of contact for their peers, and they will learn to troubleshoot laptop computer issues and to answer general questions while gaining media experience with various technologies. Throughout this semester class, student assistants will be required to complete numerous assignments. Class size is limited, and teacher recommendations are required. Students can only take this course 1 time for credit.

**STUDENT ASSISTANT**

Sophomore, junior, and senior students can elect to be a student assistant for a period of the school day. This is non-credit bearing. Students must pick up an aide form in Guidance and have it completed by a teacher and parent. These are completed during the drop-add period.

**STUDY HALL**

Students may elect to take one period per semester as a study hall for no credit.

The Area Career Center (ACC) in Hammond, Indiana offers 16 programs in Career and Technical Education (CTE). These CTE programs provide students real-world, hands-on experience that prepares them for college and careers. All CTE programs at the ACC offer college credit opportunities so students can save money and time on their college experience. Many programs offer industry-recognized certifications that help students gain employment directly upon graduation. Courses are worth 3 high school credits per semester, 6 credits per year. Courses are open to junior and senior students.

**AUTO TECHNOLOGY I & II** (IDOE COURSE NUMBERS 5510 & 5546)
Learn skills for entry-level auto mechanic positions. Earn industry leading ASE certification in suspension and steering, brakes, electrical/electronic systems, and engine performance. Work on real vehicles in a realistic shop environment. Curriculum topics rotate on a yearly basis.

Articulation: [University of Northwestern Ohio](12 credits)

Vincennes credit will be awarded for the following courses:
- AUTO 105 Transportation Fundamentals (2 credits)
- AUTO 110L Transportation Electrical Lab (1 credit)
- AUTO 110 Transportation Electrical (3 credits)

**COLLISION & REFINISHING TECHNOLOGY I & II** (IDOE COURSE NUMBERS 5544 & 5546)
Learn skills for entry-level auto body position. Earn industry leading ASE certification in painting and refinishing, structural analysis and damage repair, and non-structural analysis and damage repair. Learn computerized frame measuring, computerized estimate writing, shrinking and stretching methods, alignment work on doors, hoods and deck lids, use of spray painting equipment. Work on real vehicles in a realistic shop environment.

Articulation: [Purdue University Northwest](9 credits)

Vincennes credit will be awarded for the following courses:
- AUTO 105 Transportation Fundamentals 2 credits
- BODY 100 Non-Structural Analysis & Damage Repair 3 credits
- BODY 100L Non-Structural Analysis & Damage Repair Lab 4 credits
- BODY 150 Painting & Refinishing 3 credits
- BODY 150L Painting & Refinishing Lab 4 credits
- AUTO 110 Transportation Electrical (3 credits)

**COMPUTER INFORMATION TECHNOLOGY I & II** (IDOE COURSE NUMBERS 5234 & 4588)
Learn skills for entry-level computer support and network administrator positions. Earn industry leading CompTIA A+ certifications and Cisco CCENT certification. Learn how to install, configure, maintain, and troubleshoot computers, laptops, tablets, peripherals, and networks. Utilize all of the latest technologies and tools.

Vincennes credit will be awarded for the following courses:
- CMET Computer Maintenance I 3 credits
- CMET Computer Maintenance II 3 credits

**CONSTRUCTION TECHNOLOGY I & II** (IDOE COURSE NUMBERS 5580 & 5578)
Learn skills for entry-level construction positions. Earn industry leading Home Builder’s Institute (HBI) Carpentry Basic Certification. Learn carpentry, plumbing, electrical, masonry, painting, drywall, roofing, concrete, and OSHA training. Classroom represents a realistic job site, complete with homes that students build.

Vincennes credit will be awarded for the following courses:
- CNST 100 Construction Seminar (1 credit)
- CNST 120 Construction Safety (2 credits)
- CNST 261 IN Residential Code for 1 & 2 Family Dwellings (3 credits)
COSMETOLOGY I & II  
(IDOE COURSE NUMBERS 5802 & 5806)

Must attend 4 hours due to state regulations
Learn skills for entry-level cosmetology and hair stylist positions. Program qualifies students to take the Indiana State Board of Cosmetology exam. Learn shampoos and sets, scalp treatments, facial treatments, haircuts, hair coloring, manicures, proper sanitation and personal hygiene habits. Classroom is an operating salon, with real clients.

Vincennes credit will be awarded for the following courses:
- COSM 100 Cosmetology I (7 credits)
- COSM 200 Cosmetology III (7 credits)
- COSM 150 Cosmetology II (7 credits)
- COSM 250 Cosmetology IV (9 credits)

CRIMINAL JUSTICE AND LAW I & II  
(IDOE COURSE NUMBERS 5822 & 5824)

Learn skills for entry-level police and legal work. Earn CPR certification. Learn about the criminal justice system, traffic control, criminology, and forensic science. Participate in mock trails and perform community service.

Vincennes credit will be awarded for the following courses:
- LAWE 100 Survey of Criminal Justice (3 credits)
- LAWE 150 Intro to Criminology (3 credits)
- LAWE 106 Intro to Traffic Control (3 credits)
- LAWE 160 Criminal Investigation (3 credits)

CULINARY AND PASTRY ARTS & SCIENCES I & II  
(IDOE COURSE NUMBERS 5440 & 5346)

Learn skills for entry-level culinary arts and hospitality positions. Earn industry standard ServSae and Pro-State National Certification of Achievement. Learn all areas of food preparation, sanitation, personal finance, inventory, nutrition, customer relations, and management. Work in a professional kitchen environment with industrial grade appliances.

Articulation: Illinois Institute of Art (20 credits), Johnson and Wales University (18 credits), Mountain State (12 credits), Purdue University Northwest (7 credits), Robert Morris College (9 credits)

Vincennes credit will be awarded for the following courses:
- CULN 110 Quantity Food Production (5 credits)
- REST 120 Food Service Sanitation (3 credits)
- REST 100 Intro Hospitality Management (3 credits)
- REST Quantity Food Purchasing (3 credits)

DENTAL ASSISTING I & II  
(IDOE COURSE NUMBERS 5203 & 5204)

Learn skills for dental assisting and dental hygienist positions. Earn CPR, Dental Radiological, Dental Assistant, Orthodontic Assistant certifications. Learn dental materials, chair-side assisting, patient preparation, office tasks, lab duties, and assisting the dentist or dental hygienist. Work with dental equipment and chairs and have the opportunity for an internship at a real dentist office.

Articulation: Kaplan College (12.5 credits)

Vincennes credit will be awarded for the following courses:
- DENT 115 Preclinical Practice I (3 credits)
- DENT 124 Preventive Dentistry/Diet Nutrition (3 credits)

EARLY CHILDHOOD EDUCATION I & II  
(IDOE COURSE NUMBERS 5412 & 5406)

Learn skills for child care and pre-school teaching positions. Earn CPR and Child Development Associate (CDA) certifications. Learn child development and growth, develop lesson plans, develop the physical, emotional, social and cognitive areas of early childhood. Participate in a professional internship at a child care facility the second year of the program.

Ivy Tech credit will be awarded for the following courses:
- ECED 100 Intro to Early Childhood Education (3 credits)
- ECED 103 Curriculum in Early Childhood Classrooms (3 credits)
- ECED 101 Health, Safety, and Nutrition (3 credits)
- ECED 105 CDA Process (3 credits)
ELECTRICAL AND MECHANICAL ENGINEERING TECHNOLOGY I & II (IDOE COURSE NUMBERS 5608 & 5606)
Learn skills needed in the high demands fields of robotics, automation, engineering, and engineering technology. Earn Certified Production Technician (CPT) certification. Learn robotics and automation, engineering technology, electrical systems, mechanical systems, hydraulics and pneumatics, and programmable logic controllers (PLCs).

Vincennes credit will be awarded for the following courses:
- CIMT 100 Electronics for Automation (3 credits)
- CIMT 125 Intro to Robotics & Automation (2 credits)
- CIMT 140 Mechanical Drives (2 credits)
- CIMT 150 Electronic/Electrical Application (2 credits)
- CIMT 160 Fluid Power Systems (1 credit)
- CIMT 175 Mechatronics (2 credits)
- CIMT 100L Electronics for Automation Lab (3 credits)
- CIMT 125L Introduction to Robotics & Auto Lab (1 credit)
- CIMT 140L Mechanical Drives Lab (1 credit)
- CIMT 150L Electronic/Electrical Application Lab (1 credit)
- CIMT 160L Fluid Power System Lab (1 credit)
- CIMT 175L Mechatronics Lab (1 credit)

EMERGENCY MEDICAL SERVICES (IDOE COURSE NUMBER 5210)
Learn skills for EMT and paramedic work. Earn CPR, Emergency Medical Responder (EMR) and Emergency Medical Technician (EMT) certifications. Learn about emergency care techniques, stabilizing patients, transporting, and first responder skills. One-year program that transitions seamlessly from the Health and Science Careers programs. Course is for seniors only. Student must be 18 or turning 18 during the school year.

Vincennes credit will be awarded for the following course: EMTB 212 Emergency Medical Technician- Basic (6 credits)

GRAPHIC ARTS & DIGITAL IMAGING I & II (IDOE COURSE NUMBERS 5550 & 5572)
Learn skills for entry-level graphics design and print production work. Learn computer design, layout, illustration, offset and digital printing, sign manufacturing, and screen printing. Utilize brand new Apple Mac Computers and the latest software from Adobe.

Vincennes credit will be awarded for the following courses:
- DESN 120 Computer Illustration (3 credits)
- DESN 155 Computer Page Layout (3 credits)

HEALTH SCIENCE CAREERS I (IDOE COURSE NUMBERS 5276 & 5282)
Learn about medical terminology, anatomy and physiology, health careers and nursing skills. Transition seamlessly to other health science areas such as Nursing and EMT. Utilize state of the art Anatomy-in-Clay program.

Ivy Tech credit will be awarded for the following courses: HLHS 100 Intro to Health Careers (3 credits)

HEALTH SCIENCE CAREERS II: NURSING (IDOE COURSE NUMBER 5284)
Learn skills for entry-level nursing and healthcare work. Earn CPR and Certified Nursing Assistant (SNA) certification. Participate in an internship in a managed care facility in the second semester of the program.

Ivy Tech Credit will be awarded for the following course: HLHS 107 CAN Preparation (5 credits)

INDUSTRIAL MAINTENANCE & WELDING I & II (IDOE COURSE NUMBER 5776 & 5778)
Learn skills for entry-level welding, machining and industrial maintenance work. Earn American Welding Society (AWS) SENSE Level 1 certification. Learn welding techniques, blue print reading, industrial maintenance, motor controls, and basic electricity and machinery. Learn in a newly remodeled classroom complete with new welding booths.

Ivy Tech Credit will be awarded for the following courses:
- WELD 100 Welding Processes (3 credits)
- WELD 109 Oxy-Fuel Gas Welding & Cutting (3 credits)
- WELD 108 Shielded Metal Arc Welding I (3 credits)
- WELD 207 Gas Metal Arc (MIG) Welding (3 credits)
MULTIMEDIA BROADCAST ACADEMY I & II (IDOE COURSE NUMBERS 5986 & 5992)
Learn skills for A/V production, news anchor, radio and TV engineering work. Learn all aspects of audio/video, radio and TV production, utilize industry standard tools such as AVID Media Composer and Final Cut Pro. Work in a real high definition television studio and radio booth.

Vincennes credit will be awarded for the following courses: MCOM 102 Intro to Audio/Video Production (3 credits)

EXTRACURRICULAR ACTIVITIES

Extracurricular participation is highly encouraged. Joining a club or an organization is a great way to meet new people, have fun, and discover new things about your personality.

Academic Bowl
Participation is available to any student in grades 9-12 who volunteers. There are five subject areas: English, math, science, social studies, and fine arts. A student may participate in a total of three categories. Students read and study individually, or in groups until the competition in April.

Super Bowl
This event asks students to study a particular era across the subjects of Fine Arts, Social Studies, Science, and Math. Specific resources guide you to be prepared for the types of questions that may be asked. Each area is assigned 3-4 people to be on a team for that subject. This competition starts in the Spring Semester. Competition level begins at regional and moves from state to national.

TEAMS
TEAMS is an engineering competition that takes place in early spring. Students will be divided into teams and each team will prepare by studying common problems and situations in the field of engineering. The competition includes a multiple-choice test and a written test that asks the team to solve a complex ‘real life’ engineering problem.

Science Olympiad
This event asks a team of 15 students to compete in 20 different science categories including labs, environmental, physical, astronomical, biological, chemical and geological sciences. There are a number of ‘building’ events such as bottle rockets, mission possible, and tower building that ask students to build a superior structure or apparatus. Practice begins in the middle of the 1st semester and competitions begin in February.

Envirothon
Teams of 5 compete in forestry, aquatics, wildlife, soils, and a ‘current’ environment issue. Teams spend the day outside and end with a written test at regionals. Similar activities occur at the state level with a required speech competition. Practices begin in January, competitions in March.

American Sign Language Club
Membership is open to all students who are interested in the culture and language used by American and Canadian deaf individuals.

Art Club
This club provides a means for students to express their creativity while representing the Arts within the school and community. Face painting, design, crafts, and sponsoring the annual MHS Art Show are some of the club’s activities.
Auditorium Staff
The Auditorium Staff’s purpose is to provide a well trained staff to service to the people who use/rent the auditorium/theater facilities. Auditorium Staff members work in several fields of service including: Technical, Stage, and House.

Technical: This field includes Lighting and Sound/video work. Students will learn how to work the equipment and how to incorporate lights and sound into live shows. Stage: These students learn the operation of the counterweight system, the curtain, scenic, and people movement. They also learn to police and secure stage areas during performances, and to check and prepare the stage areas after productions, for future readiness. House: These students are the first link with the public, acting as ushers, box office staff, and concession functions of a show.

Munster Theater Company
The Munster Theater Company (MTC) usually produces three to four productions during the school year.

Band
The band consists of the Marching Mustangs, concert band, wind ensemble, jazz ensemble, jazz lab band, pep band, and small ensembles.

Color Guard
This group complements the band with their colorful appearance and precision movements. Tryouts are held in the spring.

Winter Guard
Winter guard combines elements of dance, flag spinning, and performance skills to create a competitive show choreographed to recorded music and performed in a gym. Auditions are held in November after the conclusion of the marching band season.

Jazz Ensemble and Jazz Band
These select ensembles perform throughout the area and travel to university and state festivals and competitions.

Munster Winter Percussion Ensemble
The Winter Percussion Ensemble is an extracurricular ensemble that complements the band program. Winter Percussion is open to any student with prior instrumental experience (percussion, wind, string, and piano). Students learn a program of music each year and compete in the Indiana Percussion Association circuit. Rehearsals begin in December and finish with the end of the competitive season in April.

Best Buddies
Best Buddies operates as a student-run friendship club which is actually a chapter of an international organization. It fosters friendships between students with and without intellectual disabilities. There is a monthly meeting and a monthly group activity.

Choral
Munster High School has two extracurricular choral ensembles – S.I.N.G. (men) and S.O.N.G. (women). Membership is by audition with the Choir Director at the beginning of the school year. The groups perform at five school concerts throughout the year and occasionally sing in community performances.

Chess Club
The Munster High School chess team is composed of students in grades 9-12 who desire to compete using their talents and problem solving skills through the competitive game of chess.

Civics Club
The Civics Club will educate current students in the voting process and current political issues. One goal is to increase the number of local voters within the club and region. It will also prepare members to have a strong civic community and the country as a whole.
Class Executive Council (CEC)
In May, student elections are held and each class votes for candidates to become its class representatives for the following year.

- Freshman: The freshman CEC organizes activities for homecoming and may be involved in other activities throughout the year.
- Sophomore: The sophomore CEC organizes activities for homecoming and may be involved in other activities throughout the year.
- Junior CEC: Junior CEC: The junior CEC takes part in the homecoming festivities and organizes the Junior/Senior Prom. The club may be involved in other activities throughout the year.
- Senior CEC: The senior CEC organizes activities for homecoming parade, participates in the pep rally, picks a homecoming t-shirt, organizes the senior banquet, and selects the class gift for the school.

DECA
DECA is a student-centered organization whose program of leadership and personal development is designed for students with a career interest in marketing, management, hospitality, finance, entrepreneurship, and/or business administration.

French Club
The French club celebrates French culture through activities including a cheese party, a holiday party, Mardi gras festival, field trips, and picnic.

GSA- (GAY STRAIGHT ALLIANCE)
The GSA provides a place for students of the gay, lesbian, bisexual, transgender and allied community to meet for social, emotional and educational support. The GSA serves to create a school of safe and mutual respect by raising awareness on issues impacting the student body

Munster Timing Organization (M.T.O.)
MTO’s main activities are timing and helping the coaches with home swim meets.

Munster Read and White Book Club
Read and White creates a reading-friendly environment and motivate students to continually develop and strengthen their reading skills.

Orchestra
Orchestra is available to students who play a string instrument. Students participate in concerts, public performances, district and state contests, organizational contests, and the annual spring musical. Students with experience on brass, woodwind, or percussion instruments may also be considered for membership. Audition may be required.

Ping-Pong Club
This club will familiarize students with the equipment and rules of Ping-Pong. They will play individually or in pairs for fun or in tournaments.

Project X
Project X is a service organization geared toward helping the needy in the Munster community.

Publications
Students interested in working on the school newspaper or the school yearbook must first enroll in the Journalism class. The following year they will select to work for the Crier or the Paragon and enroll in Honors Journalism classes.

Robotics Team
Membership is open to all students in grades 9-12 who have an interest in working with parents and community mentors to build a robot. The team will be divided into sub-teams which have specific responsibilities; Drive Team, Chassis Team, Electrical Team, Pneumatics Team, Playing Field Construction Team, Competition Team, Pit Crew, Programming Team, Animation Team, Web Team, and Scouting Team.
S.A.D.D. (Students against Destructive Decision)
SADD educates and promotes awareness of destructive decision making, such as drug & alcohol use and other activities that can harm students.

Spanish Club
Spanish club is for all students interested in learning more about the Spanish culture in a non-classroom situation.

Speech and Debate
The Speech and Debate Team is an organization for all students who wish to enhance their speaking and/or acting skills by competing in speech and debate contests throughout the state and national levels.

S.T.A.N.D. (Socially Together Naturally Diverse)
This club will create an environment where students feel safe and supported. The intended outcome for the club is for the students to feel comfortable whether they are in school, a store, a city, or even just at home. Everyone is unique and has something to offer.

Student Government
This is an elective body made up of student from grades 9-12. Elections are held in the spring with the exception of the freshman class who elects their representatives in the fall.

We The People
The “We The People” program was developed in 1987 by the United States Department of Education and by act of Congress in order to foster a citizenry that is both actively engaged and well informed. The Munster program focuses on the history, philosophy, and implementation of the United States Constitution as well as civil rights and liberties. The course, while offered during the school day, also entails some after school practices and work with legal experts throughout the community. Students are required to participate in the competitive Congressional District meet as well as the State and National meets when qualified.

National Forensic League
The NFL is a national honorary organization composed of students who have earned a minimum of twenty-five NFL points in competition.

National Honor Society
Juniors and seniors with a minimum grade point average of 3.25 are invited to become members of this honorary organization. Membership is based on scholarship, character, service and leadership. Induction of new members is held each spring.

Quill and Scroll
The Quill and Scroll is an international high school journalism honorary organization in which students are selected on the basis of outstanding service to the Munster High School Journalism Department.

Thespian Troupe #2861
The Thespian Troupe is an honorary society made up of students elected for their participation in the productions presented by the Munster Theater Company.
